Yurii Kinakh

Senior Mobile App Developer

+380 93 086 1228 •yuriikinakh5@gmail.com • Peretoky, Ukraine

Summary

I am a Senior Mobile App Developer with 8+ years of experience. I specialize in developing applications for iOS and Android using the latest technologies, such as Ionic Framework, React Native, Flutter, Swift, and Kotlin.

In my career, I have successfully completed 70+ mobile app projects spanning various domains. My work speaks of quality and dedication.

Choosing me means you get a developer who's committed to providing ongoing support, ensuring your app's success, and transforming your ideas into reality.

Let's collaborate to create cutting-edge solutions that drive innovation and deliver exceptional value!

Experience

Zyra Talk
Phoenix, United States
06/2023 – 10/2024
Senior Software Engineer

- Led the development of AI-driven mobile apps, specializing in intelligent subscription management and billing solutions.
- Collaborated closely with the engineering team to incorporate AI-based revenue management features into mobile platforms.
- Enhanced application performance and ensured smooth integration with existing systems utilizing AI algorithms for optimization.
- Offered technical leadership and mentorship to junior developers, promoting a collaborative development environment focused on AI technologies.

FreshWorks Studio
Victoria, Canada
11/2020 – 12/2022
Software Developer

- Led the development of custom mobile apps for a variety of clients, focusing on improving user experience and ensuring optimal performance.
- Implemented advanced features and integrated third-party services to fulfill specific client requirements.
- Collaborated with cross-functional teams to deliver high-quality software solutions within established project timelines.
- Enhanced application stability and performance by conducting comprehensive testing and implementing optimizations.

MediSprout
New York, United States
08/2019 – 09/2020
Software Developer

- Designed and developed mobile apps across the healthcare industry.
- Managed the entire app development process, from the initial concept to deployment and ongoing maintenance.
- Collaborated with stakeholders to gather requirements and ensure alignment with business objectives.
- Enhanced app functionality and user interface based on user feedback and evolving industry standards.

Zco Corporatio
Breda, Netherlands
02/2016 – 04/2019
Full Stack Developer

- Developed and maintained React Native components, screens, and features for the mobile app using TDD practices.

- Collaborated with other developers to implement new features in a way that is consistent with existing codebase conventions.
- Provided technical leadership by mentoring junior engineers on best practices in software development and engineering processes.
- Participated in design discussions concerning application architecture, feature implementation, and other relevant topics as needed.
- Assisted in creating test plans for new functionality prior to release and supported the QA team during testing phases when required.

Skills

Full-Stack Development • Mobile App Development • iOS • Ionic Framework • Swift • Objective-C • Flutter • React Native • Android • Kotlin • Java • Firebase • Web Development • React.js • Next.js • Vue.js • Python • Node.js • JavaScript • Artificial Intelligence • AI Development • Machine Learning • Natural Language Processing • AI Model Development • AI Model Integration • Tensorflow • PyTorch • Data Science • Machine Learning Algorithms • Amazon Web Services • Google Cloud Platforms

Education

National Aviation University
Bachelor of Computer Science   2008 – 2012

Taras Shevchenko National University of Kyiv
Master of Computer Science   2021 – 2025

Strengths

Life-Long Learner
Always seeking to improve and grow, up-to-date on latest trends and technologies

Problem-Solving
Quickly identify and resolve issues in code, debugged Java-based application and increased customer satisfaction rating by 25%

Team Management
Create a positive and collaborative environment, increased staff satisfaction rating by 20%

Task Delegation
Delegate tasks according to staff strengths, led project that finished ahead of schedule and earned $2.5M in sales revenue
